

2020 JUNIOR GOLF PROGRAM

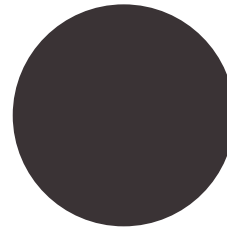

Legacy Golf Academy

The junior golf program is designed to introduce players to the game by developing their skills, building confidence, and help them become active golfers for life.

ABOUT THE PROGRAM

The summer golf program will be an 8 week program offered for players 10 and under and 11 and over. Those in the 11 and over division will participate every week while those in the 10 and under division will participate every other week. Students in the 11 and over division will alternate between instruction and on course play each week. For the older division, our goal is to build upon current skills and scoring tactics, provide education on the rules and course management, and build competitive golf experiences. For the younger division, our goal is to develop key athletic and golf fundamentals while keeping the learning environment fun and active with games and activities.
